### PROFESSIONAL SUMMARY

---

Full-stack web developer and video editor with 4+ years of hands-on experience running an independent content and video production operation, plus practical software development experience built through academic leadership roles. Founder of ERO | VISUALS, a content brand grown from zero to 124M+ cumulative video views, with commissioned editing work delivered for international clients. Web Development Lead experience building and maintaining full-stack applications with HTML, CSS, JavaScript, Node.js, Express, and MySQL. Portfolio site self-built using HTML, CSS, and JavaScript (see link above), a live demonstration of front-end development skills. Also brings virtual assistant experience in content planning, project coordination, and client communication across US, UK, AU, and Asia time zones. Final-year BS Information Technology student, available for OJT placement in 2026 and open to remote software development, video editing, or VA work.

### EXPERIENCE

---

#### Founder & Content Operator — ERO | VISUALS (@EROEDTX) August 2022 – Present

- Independently manage the full content operation for a brand with 124M+ cumulative views: content calendars, digital asset libraries, publishing schedules, and performance tracking across TikTok, YouTube, Facebook, and Instagram.
- Coordinate directly with outside clients on commissioned work, including a promotional edit for a U.S. recording artist's trending track that reached 3.9M views and 270K likes.
- Managed full client intake for a commissioned two-part edit series synced to a trending sound, handling requirements gathering, creative-brief Q&A, a 24-hour delivery timeline, and client communication between from quote to final handoff.
- Organize and archive raw footage, briefs, and delivery files across projects; keep production on schedule end-to-end from planning through publishing.
- Track and report performance data (reach, audience demographics, discovery source) to guide planning — 239K+ TikTok followers, 21.3M+ likes, 96%+ of reach from non-follower discovery.

#### Web Development Lead — Microsoft Student Community, NU Laguna June 2025 – May 2026

- Coordinated a team of student developers against a shared project timeline and API contract, handling documentation and progress tracking alongside hands-on backend development (Node.js, Express, MySQL).
- Provided technical support and troubleshooting, and organized handoff documentation for deployment.

#### Capstone Project Lead — City Government of Sto. Tomas, Batangas 2025 – 2026

- Coordinated project timelines, requirements gathering, and stakeholder communication for a Document Tracking and Analytics System.
- Maintained project documentation and monitored progress to ensure timely completion.

#### Video Production Officer — NU Laguna School of Computer Studies Student Council June 2025 – Present

- Coordinate with officers and organizers to plan, schedule, and deliver multimedia content on time for university events.
- Organize digital assets and production files for efficient team collaboration.
