

MERWIN M. GENEROSO

Information Technology Student | Systems & Backend Development | IT Support & Network Security |

AI-Assisted Development | Video Editing

Sto. Tomas City, Batangas, Philippines | +63 967 310 7689 | generosomerwin10@gmail.com

Portfolio: generosomm.dev | LinkedIn: linkedin.com/in/generosomm | GitHub: github.com/generosomm | TikTok: [@eroedtx](https://tiktok.com/@eroedtx)

PROFESSIONAL SUMMARY

4th year BS Information Technology student (National University Laguna x Asia Pacific College) with Certiport ITS certifications in Network Security and Databases. Hands-on experience across backend development (Node.js, Express, PHP, MySQL), REST API and EDI systems integration, Windows setup and PC/WiFi troubleshooting, and technical documentation. Currently the full-stack developer of ASINTA, a security agency workforce platform (React, TypeScript, Firebase) built as a capstone project. Led the backend of a live community website serving 307 members of the Microsoft Student Community NU Laguna, and led a document tracking system covering 32 departments of the City Government of Sto. Tomas, Batangas. Uses AI tools (Claude, ChatGPT, Gemini, GitHub Copilot) daily to build, debug, and automate. Also runs ERO | VISUALS, a short-form video brand with 274M+ views and 260K+ followers across TikTok and YouTube. Seeking a 600-hour OJT/internship starting late October 2026.

EDUCATION

Bachelor of Science in Information Technology

Expected July 2027

National University Laguna x Asia Pacific College | Currently 4th Year, 2nd Semester

- Scholar, City Government of Sto. Tomas, Batangas, maintaining the required grades
- Dean's Lister for consecutive academic years

CERTIFICATIONS

- Information Technology Specialist: Network Security, Certiport (2026)
- Information Technology Specialist: Databases, Certiport (2025)
- Salesforce Agentblazer Champion, Salesforce (2025)

EXPERIENCE

Full-Stack Developer | ASINTA Capstone Project, NU Laguna

August 2026 to Present

React, TypeScript, Vite, Tailwind CSS, Firebase (Auth, Firestore, Cloud Functions, Storage, Hosting), Google Maps API

- Full-stack developer on a 5-member Scrum team building ASINTA, a workforce management platform for security agencies with admin, guard, and client portals.
- Built features across the stack, including duty scheduling with conflict and labor-rule checks (rest days, monthly workday limits), leave and reliever replacement workflows, and incident reporting.
- Worked on secure guard check-in that combines TOTP authenticator codes (encrypted secrets, brute-force lockout) with GPS geofence validation, plus a live-photo fallback override.
- Worked on a compliance auto-fill engine for SSS, PhilHealth, Pag-IBIG, and DOLE forms with encrypted, masked employee identifiers and PDF export.
- Enforced role-based access through Firestore security rules and Cloud Functions, with audit logging of sensitive actions.
- Project scale: 88-task sprint plan, 33 Cloud Functions deployed, and 594+ automated checks (security rules, end-to-end, and unit tests).

Web Development Lead | Microsoft Student Community, NU Laguna

June 2025 to July 2026

- Architected and shipped the backend for the MSC NU Laguna community website (Node.js, Express, MySQL), serving 307 members and launched live at SparkPoint 2026 (mscnulaguna.org).
- Served as the technical point of contact for student developers on requirements, API integration, troubleshooting, and progress updates.
- Diagnosed and helped resolve technical issues, and established documentation standards and development workflows to keep implementation consistent across the team.

Capstone Project Lead | City Government of Sto. Tomas, Batangas

August 2025 to June 2026

- Represented the development team in requirements gathering and coordination with city government stakeholders for a PHP and MySQL Document Tracking & Analytics system covering 32 municipal departments, and contributed to its development.
- Delivered three core features: a document routing workflow across departments, digital signatures on documents, and an admin dashboard for managing documents and user roles.
- Translated government workflow requirements into system features, technical tasks, and development priorities.
- Maintained project documentation and tracked issues, progress, and system requirements throughout development.

Video Production Officer | NU Laguna School of Computer Studies Student Council

June 2025 to Present

- Coordinate and deliver multimedia projects for university events on tight timelines while keeping project files and workflows organized.
- Collaborate with student officers on requirements, schedules, revisions, and project delivery.

Creator & Video Editor | ERO | VISUALS (@eroedtx)

August 2022 to Present

- Built and run a self-managed short-form content brand with 274M+ views, 260K+ followers, and 2.6K+ posts across TikTok (251M views, 237K followers) and YouTube (23.5M views, 22.8K subscribers), tracked live on generosomm.dev.
- Delivered freelance video work for 8+ clients, managing briefs, revisions, deadlines, and client communication end to end.
- Edited and published 10+ promotional campaigns for a music campaign client.
- Edited and posted 2 promotional videos on @eroedtx for an international (US) client's music release.
- Produced TikTok and Reels content for 5 clients through a startup agency, including 5 AI-generated video hooks for one client.
- Completed 4 successful film promotion campaigns for a Filipino film client.
- Produce AI-generated product media as part of creative work.

Volunteer Technical Support | NU Laguna

- Volunteered to set up and manage the computer lab PCs for the NU Laguna intramurals esports event.
- Provided technical support for the Microsoft Student Community UI/UX development workshop.
- Troubleshoot PCs and WiFi connectivity issues for peers, student org members, and family.
- Install and configure Windows 10/11, manage drivers, perform hardware upgrades (RAM, storage), and optimize PC performance through hands-on tuning of my own system.

PROJECTS

Goodness Gracious: Hotel EDI Integration System

2026 (one term, about 3 months)

HTML/CSS/JavaScript, Firebase Cloud Functions, Firestore, Vercel

- Led the Customer/Hotel node in a 5-team systems integration project connecting independent systems through API-based communication.
- Built a hotel inventory dashboard tracking orders, invoices, shipments, stock levels, and audit logs.
- Implemented REST endpoints for exchanging ANSI X12-based EDI transactions and participated in cross-team integration testing.

MSC NU Laguna Community Website (mscnulaguna.org)

2025 to 2026

Node.js, Express, MySQL

- Production backend for a student community website serving 307 members, launched live at SparkPoint 2026. See Experience above for details.

Digital Creative Portfolio (generosomm.dev)

2026

HTML5, CSS3, JavaScript, JSON, GitHub Pages / Vercel

- Designed and developed a responsive portfolio website from scratch using a framework-free frontend and JSON-based content structure.
- Implemented custom animations, project showcases, and a live social stats section that pulls real-time follower, view, and post counts from TikTok and YouTube.

Zero to Deploy

2026

HTML/CSS/JavaScript, GitHub Pages

- Form-based tool that generates a detailed, personalized master prompt for vibe coding a system, based on the developer's needs.
- Guides developers to plan their system properly while answering the form. Originally built for my own workflow.

Nexus Pass

2026

HTML/CSS/JavaScript, GitHub Pages

- Class activity project: a premium digital event pass that lets attendees check in to a big event by simply tapping a card.

TECHNICAL SKILLS

- **IT Support & Systems:** PC and WiFi Troubleshooting, PC Optimization, Debugging, Windows 10/11 Installation and Configuration, Hardware Upgrades (RAM, Storage), Driver Management, Event Tech Setup, Microsoft 365, Google Workspace
- **Security & Networking:** Network Security Fundamentals (Certiport ITS certified), Role-Based Access Control, Firestore Security Rules, TOTP Two-Factor Authentication, Data Encryption and Masking, Audit Logging
- **Databases:** SQL, MySQL, Firestore, Database Design (Certiport ITS certified)
- **Programming & Web:** JavaScript, TypeScript, React, Vite, Tailwind CSS, PHP, HTML5, CSS3, Node.js, Express, Responsive Web Development, Backend Development
- **APIs & Integration:** REST APIs, API Integration, Systems Integration, EDI (ANSI X12), Firebase Cloud Functions, Google Maps API, TikTok and YouTube APIs
- **AI Tools:** Claude, ChatGPT (OpenAI), Gemini, GitHub Copilot, AI-assisted coding (vibe coding), Prompt Engineering, AI-generated media
- **Dev Tools & Platforms:** Git, GitHub, VS Code, Firebase, Vercel, GitHub Pages, ESLint, Prettier, Automated Testing (unit, end-to-end, security rules)
- **Documentation & Operations:** Technical Documentation, Requirements Gathering, Stakeholder Communication, Progress Tracking, Records and Inventory Tracking, Workflow Organization, Remote Collaboration

- **Productivity & Project Tools:** Agile Scrum, Microsoft Planner, Notion, Trello, Google Workspace, Microsoft 365
- **Creative:** CapCut (primary editor), Adobe Premiere Pro, Adobe After Effects, PicsArt, Canva

LEADERSHIP & ACTIVITIES

- Web Development Lead, Microsoft Student Community NU Laguna (2025 to 2026)
- Video Production Officer, NU Laguna School of Computer Studies Student Council (2025 to Present)
- Participant, QS Impact Web Development Challenge, team of 3 (March 2026)
- Volunteer Technical Support, NU Laguna Intramurals Esports and MSC UI/UX Development Workshop

LANGUAGES

- Filipino (native), English (fluent)
